Employed persons by detailed occupation, sex, race, and

Engineering statistics combines engineering and statistics using scientific methods for analyzing data. Engineering statistics involves data concerning manufacturing processes such as: component dimensions, tolerances, type of material, and fabrication process control. There are many methods used in engineering analysis and they are often displayed as histograms to give a visual of the data as ...

The Foundation also plays an important role in the translation and dissemination of applied research, technology demonstration, and education, through creation of research -based educational tools and technology exchange

Final Report - BMP Database

ASSP has a long-standing reputation of delivering top-quality occupational safety and health education and training members can immediately put into practice.

ASSP Home

Engineers, as practitioners of engineering, are people who invent, design, analyze, build, and test machines, systems, structures and materials to fulfill objectives and requirements while considering the limitations imposed by practicality, regulation, safety, and cost. The word engineer (Latin ingeniator) is derived from the Latin words ingeniare ("to contrive, devise") and ingenium ...
