RESEARCH REPORT 320 - Health and Safety Executive

Thermoplastic elastomers (TPE), sometimes referred to as thermoplastic rubbers, are a class of copolymers or a physical mix of polymers (usually a plastic and a rubber) which consist of materials with both thermoplastic and elastomeric properties.

Thermoplastic elastomer - Wikipedia

REFERENCE 1 MSC Software Corporation, the worldwide leader in rubber analysis, would like to share some of our experiences and expertise in analyzing elastomers with you.

Technical Paper - MSC Software Corporation

1. INTRODUCTION. Thermoplastics and elastomers have outstanding resistance to a wide range of chemical reagents. The chemical resistance of plastic piping is basically a function of the thermoplastic material and the compounding components.
