In the field of pedagogy, learning by teaching (German: Lernen durch Lehren, short LdL) is a method of teaching in which students are made to learn material and prepare lessons to teach it to the other students. There is a strong emphasis on acquisition of life skills along with the subject matter. This method was originally defined by Jean-Pol Martin in the 1980s.

Learning by teaching - Wikipedia

While everyone knows that teaching adults is different from teaching children, many Adult Basic Education professionals do not have access to training and resources that are applicable specifically to adult education.

ATLAS ABE Teaching & Learning Advancement System

Educational technology is "the study and ethical practice of facilitating learning and improving performance by creating, using, and managing appropriate technological processes and resources".. Educational technology is the use of both physical hardware and educational theoretics.
